atomcamp National AI Hackathon Finale: Event Agenda

Tuesday, October 20, 2026 | NIC Islamabad

Event at a glance

Date	Tuesday, October 20, 2026
Venue	National Incubation Center (NIC), Islamabad
Participants	11 finalist teams from across Pakistan, 2 members per team (a 3rd member may join at their own expense)
Format	One-day build: problem reveal, on-site development, live presentations to judges
Day timing	9:00 AM to 6:45 PM

Agenda

Time	Session	Details
9:00 AM to 9:20 AM	Arrival and Welcome	Team check-in, seating, and opening introduction to the day
9:20 AM to 10:20 AM	Session by Accelerate Prosperity	Introduction to Accelerate Prosperity and its work
10:20 AM to 10:40 AM	Problem Statement Reveal	All problem statements presented on screen, one slide each
10:40 AM to 11:00 AM	Problem Statement Selection	Teams pick their problem statement by draw order (process below)
11:00 AM to 4:00 PM	Build Phase	Teams design, develop, and deploy their Agentic AI solutions
1:00 PM to 2:00 PM	Lunch (served during build)	Lunch served at the venue; the build clock keeps running
3:45 PM	Submission Deadline	Deployed link, GitHub repo, and slides submitted to organizers
4:00 PM to 5:50 PM	Final Presentations	11 teams, 10 minutes each (7 min presentation, 3 min Q&A)
5:50 PM to 6:10 PM	Judges' Deliberation	Judges finalize scores; refreshments for participants
6:10 PM to 6:45 PM	Closing Ceremony	Results announcement, prize distribution, certificates, group photo

How problem statements will be assigned

Each team gets a unique problem statement. No two teams will work on the same one.

1. All problem statements are shown on screen, one slide per statement, with a short brief for each.
2. There will be more problem statements than teams, so every team has a real choice.
3. Each team draws a number (1 to 11) to set its picking order.
4. In that order, each team announces its chosen statement.
5. Once a statement is picked, it is marked as taken on screen and is no longer available.
6. The same draw number sets the presentation order in the afternoon.

Build phase notes

- Development starts only after selection is complete at 11:00 AM.
- Mentors and organizers will be available on the floor for logistics and technical issues.
- Google Cloud credits and OpenAI API keys will be handed out during the selection session.

- Submissions close at 3:45 PM sharp so teams have time to set up before presentations.

Presentation format

- 10 minutes per team: 7 minutes to present and demo, followed by 3 minutes of Q&A from the judges.
- Timing is strict. The next team should be ready to set up while the current team takes Q&A.
- Judging criteria: Innovation, Functionality, Scalability, Real-world Impact, and Technical Execution.
